

## "One life stand"

1.

On the day when we first met, I came voluntarily.  
I just came along to please 'cause my friend kept asking me.

Pre

I just came in through the November rain,  
when I walked out I left behind all my pain.

Chorus

I know I never will forget the day when we first met,  
all the things that I adore, but You give me even more.  
There is nothing I regret now You've taken all my debt,  
all the things I left behind, they won't prey upon my mind.  
I know You're always close at hand,  
You are my one life stand.

2.

When I first encountered You I was off on holiday.  
In the eyes of someone else I saw the glory of Your way.

Pre

Just like You it took me all by surprise,  
but I knew the time had come to lose my disguise.

Chorus

I know I never will forget the day when we first met,  
all the things that I adore, but You give me even more.  
There is nothing I regret now You've taken all my debt,  
all the things I left behind, they won't prey upon my mind.  
I know You're always close at hand, I know You're always close at hand,  
You are my one life stand.

B

I don't regret a single day since I chose to go Your way.  
But I wonder where I'd be if You hadn't come and rescued me,  
hadn't come for me.

Chorus

I know I never will forget the day when we first met,  
all the things that I adore, but You give me even more.  
I know I never will forget the day when we first met,  
all the things that I adore, but You give me even more.  
There is nothing I regret now You've taken all my debt,  
all the things I left behind, they won't prey upon my mind.  
I know You're always close at hand, I know You're always close at hand,  
You are my one life stand.
